EXPERIENCE

Digital Marketing Intern

Feb 2026 – May 2026

Omnie Solutions Pvt Ltd., Noida (Work from Office)

- Did training in digital marketing concepts including social media marketing, email marketing, and performance marketing.
- Worked on projects focused on promoting different brands through social media campaigns and audience engagement strategies.
- Created social media calendars, planned content, and designed posts for Instagram pages while collaborating with team members on ongoing tasks.

Thumbnail Designer

Dec 2025 – Feb 2026

International Digital Media Agency (Remote)

- Designed YouTube thumbnails and promotional creatives for video content and digital campaigns.
- Focused on understanding target audiences, branding styles, and creating catchy thumbnail text to improve engagement and increase clicks on YouTube videos.
- Used Canva and graphic design principles to create visually engaging and click-oriented designs.

PROJECTS

My Portfolio Website

- Developed a modern and fully responsive personal portfolio using React.js and Tailwind CSS to showcase full-stack projects, UI/UX designs, technical skills, and professional experience.
- Built reusable React components with responsive layouts, smooth navigation, and interactive user interfaces to ensure a seamless experience across desktop and mobile devices.
- Implemented clean UI design, optimized performance, and integrated GitHub, LinkedIn, and project showcases to create a professional online presence.

Lumiere – Full Stack E-commerce Website

- Built a modern skincare e-commerce website for a startup idea featuring handcrafted serums, oils, and balms with a premium and responsive user interface.
- Developed the frontend using React.js, Tailwind CSS, and Framer Motion, creating smooth animations, interactive product pages, and an engaging shopping experience.
- Implemented Google Authentication and integrated Supabase (PostgreSQL) for user data management with a Next.js backend to handle authentication and database operations.

Finance Hub – Personal Finance Dashboard

- Built a full-stack personal finance management application using HTML, CSS, and JavaScript, enabling users to track income, expenses, savings, and financial goals through an intuitive dashboard.
- Integrated Google Authentication and Supabase (PostgreSQL) for secure user authentication and cloud-based storage of financial records.
- Developed the backend using Next.js to manage authentication, database operations, and real-time financial data while ensuring a responsive and user-friendly experience.

TECHNICAL SKILLS

Frontend Development

React.js, HTML5, CSS3, Tailwind CSS, JavaScript, Framer Motion

Backend Development

Next.js, REST APIs, Google Authentication (OAuth), Authentication & Authorization

Database

Supabase, PostgreSQL, SQL
